# TABLE OF CONTENTS

## Ecology and Management

**Dynamics of a recolonizing Dall’s sheep population in southwest Yukon**  
*Troy M. Hegel* ............................................................ 1

**Behavioral connectivity among bighorn sheep suggests potential for disease spread**  
*Nathan J. Borg, Michael S. Mitchell, Paul M. Lukacs, Curt M. Mack, Lisette P. Waits,*  
*and Paul R. Krausman* .................................................. 4

**Movements of a localized mountain goat herd: implications for harvest**  
*David J. Vales, Michael P. Middleton, and Mike McDaniel* ................................. 5

**Limiting factors of bighorn sheep population in central and southwestern Idaho**  
*Bret Stansberry, Rachel Curtis, Hollie Miyasaki, Shane Roberts,*  
*and Mark Drew* ............................................................ 16

**Delineating and estimating seasonal migration patterns of Rocky Mountain bighorn sheep in the mountain valley complex of south central Idaho**  
*Scott Bergen, Hollie Miyasaki,*  
*and Mark Hurley* .................................................................. 17

## Understanding Disease Dynamics in the Field

**Modeling management strategies for the control of bighorn sheep respiratory disease**  
*Emily Almberg, Kezia Manlove, E. Frances Cassirer, Jennifer Ramsey,*  
*Keri Carson, Justin Gude,*  
*and Raina Plowright* ............................................................. 18

**Status of western Montana bighorn sheep herds and discussion of control efforts after all-age die-offs**  
*Jennifer Ramsey, Keri Carson, Emily Almberg, Mike Thompson, Rebecca Mowry,*  
*Liz Bradley, Jay Kolbe,*  
*and Craig Jourdonnais* .......................................................... 19
Management responses to pneumonia outbreaks in three Washington state bighorn herds: lessons learned and questioned yet unanswered
Jeffrey Bernatowicz, Darren Bruning, E. Frances Cassirer, Richard B. Harris, Kristin Mansfield, and Paul Wik ............................. 38

The Montana-Wyoming collaborative bighorn sheep research program

Evaluating alternative hypotheses to explain bighorn sheep respiratory disease events

Investigation of pneumonia mortalities in a Mycoplasma-positive desert bighorn sheep population and detection of a different strain of Mycoplasma ovipneumoniae
Anne E. Justice-Allen, Erin Butler, Jeff Pebworth, Amber Munig, Peregrine Wolff, and Thomas E. Besser ................................................................. 68

Understanding the dynamics of Mycoplasma ovipneumoniae carriers in a bighorn sheep population

Disease introduction is associated with a phase transition in bighorn sheep demographics
Kezia Manlove, E. Frances Cassirer, Paul C. Cross, Raina K. Plowright, and Peter J. Hudson ............................................................................................................ 74

Evidence for strain-specific immunity to pneumonia in bighorn sheep
E. Frances Cassirer, Kezia R. Manlove, Raina K. Plowright, and Thomas E. Besser .............. 75

Risk of pathogen spillover to bighorn sheep from domestic sheep and goat flocks on private land
Laura M. Heinse, Linda H. Hardesty, and Richard B. Harris .................................................. 76

Mycoplasma ovipneumoniae cross-strain transmissions in captive bighorn sheep
Brandi L. Felts, Daniel P. Walsh, E. Frances Cassirer, Thomas E. Besser, and Jonathan A. Jenks ............................................................................................................. 77
Disease transmission between sympatric mountain goats and bighorn sheep
Peregrine Wolff, Mike Cox, Caleb McAdoo, and Chris A. Anderson .......................... 79

Detection of *Mycoplasma ovipneumoniae* in pneumonic mountain goat kids

Bighorn sheep sinus tumors, an update
Peregrine L. Wolff and Karen A. Fox .......................................................................... 81

**Fundamental disease research**

An improved method for culturing *Mycoplasma ovipneumoniae* from field samples
Jessica E. Jennings-Gaines, William H. Edwards, Mary E. Wood, Karen A. Fox, Lisa L. Wolfe, Michael W. Miller, and Halcyon J. Killion ................................................................. 83

*Mycoplasma ovipneumoniae* strains associated with pneumonia outbreaks in North American bighorn sheep
Logan K. Weyand, E. Frances Cassirer, Gretchen E. Kaufman, and Thomas E. Besser ........ 89

*Mycoplasma ovipneumoniae* originating from domestic goats triggers mild bronchopneumonia in experimentally exposed naïve bighorn sheep (and domestic goats)
Thomas E. Besser and E. Frances Cassirer .................................................................. 98

Potential disease agents in domestic goats in Idaho and Oregon and their relevance to bighorn sheep management
Mark L. Drew, Glen C. Weiser, and Alton C. S. Ward ................................................ 100

Maternal investment partitioning of bighorn sheep: do chronic *Mycoplasma* shedders exhibit an inferiority complex?
Justin E. Jensen, Spencer A. Carstens, Brandi L. Felts, Austin J. Wieseler, E. Frances Cassirer, Thomas E. Besser, and Jonathan A. Jenks ...................................................................... 103

**Habitats and their use**

Seasonal resource selection by introduced mountain goats in the southwest Greater Yellowstone area
Blake Lowrey, Robert A. Garrott, Hollie Miyasaki, Gary Fralick, and Sarah R. Dewey .... 105
Bighorn sheep movements and mineral lick use in Waterton-Glacier International Peace Park
Tabitha A. Graves, Elizabeth P. Flesch, Kim Keating, and Mark J. Biel

Spatial responses of bighorn sheep to forest canopy in north-central Washington
Tiffany L. Baker, Mark E. Swanson, and Lisa A. Shipley

Pattern of herbivory, nitrogen content, and biomass of bluebunch wheatgrass on a mountain sheep habitat in central Idaho
James Peek

Annual changes in bluebunch wheatgrass biomass and nutrients related to climate and wildfire
James Peek

Production and nutrient content of two shrub species related to fire in central Idaho
James Peek

Genetics

Population genetics of the world’s thinhorn sheep (Ovis dalli)
Zijian Sim, Bill Jex, Troy Hegel, Corey Davis, Nicholas C. Larter, and David W. Coltman

Genetic linkages among Mycoplasma ovipneumoniae strains in wild and domestic sheep and goats
Pauline L. Kamath, Paul C. Cross, E. Frances Cassirer, and Thomas E. Besser

An initial assessment of the potential of genomic analysis to help inform bighorn sheep management
Elizabeth P. Flesch, Jennifer M. Thomson, Robert A. Garrott, and Tabitha A. Graves

Associations between allelic diversity and Mycoplasma ovipneumoniae shedding history in bighorn sheep
Austin J. Wieseler, Brandi L. Felts, Daniel P. Walsh, Thomas E. Besser, E. Frances Cassirer, Kristine L. Pilgrim, Michael K. Schwartz, Michael G. Gonda, and Jonathan A. Jenks
